

Allies Making New Gains Daily; Another Big Drive Started

British Capture 11,000 Prisoners Since July 1

FLASH. LONDON, Eng., July 19.—In further severe fighting on a four-mile front last night, the Allies made a further advance of several hundred yards. The casualties were not unduly heavy.

EDMONTON COUPLE ON WRECKED TRAIN; BOTH ARE INJURED

CHICAGO, July 17.—A number of Canadians had a narrow escape from death as the result of a wreck on the Michigan Central Railroad, near Michigan City, Mich., last night. The engine struck an open switch, and every car on train was derailed. Sixteen passengers were injured by the flying glass, and the cars were badly broken up. Among those being cared for at the Hotel Sherman by the M.C.R. are Mr. and Mrs. Lester M. Treffery, Edmonton, Alberta. They are both badly bruised and cut, the car in which they were riding being completely demolished, and their escape from more serious injury miraculous.

Mr. and Mrs. Treffery are returning from the Shriner's Convention at Buffalo, the former having represented the Edmonton Journal on the special train which conveyed some 250 Albertans to the big gathering. Mr. Treffery stated last night that he and his wife were the only members of the Alberta party on the wrecked train.

GOV'T. BULLETIN ON TIMOTHY SEED PRODUCTION ISSUED

The Alberta Department of Agriculture has coming off the press and available for immediate distribution, a bulletin on timothy seed production in Alberta. Last year about ten cars of Alberta timothy seed went into the Eastern market and the superiority of the Alberta kernel is as evident in the case of the timothy as it has been in the case of Marquis wheat and Banner oats.

The bulletin is quite timely. It deals with regard to production and marketing. About 400,000 bushels, or two-thirds of the supply of seed comes in from the United States, being produced on high-priced lands and paying a 17½% war duty. It is easily seen at what an advantage the Canadian, and particularly the Western seed grower is, with low-priced lands and a market not only open but protected.

The bulletin is quite complete with respect to setting out, soil adaptations, methods of seeding, harvesting, cleaning and marketing. Negotiations are under way between the Dominion and Provincial Governments by which cleaning machinery will be installed at central elevators by the Dominion Government, and the Provincial Government will furnish inspectors who will make it their business to maintain the standard of the outgoing Alberta product. The Department of Agriculture will give all assistance possible in promoting trading between producers and dealers. All enquiries should be directed to the Seed and Weed Branch Department of Agriculture, Edmonton.

CLEAR LAKE IS PROVING ACCEPTABLE CAMP RENDEVOUS

In times like these when the thermometer is hovering around the ninety mark, a trip to Wainwright's "seaside"—Clear Lake—offers the only thing, and many of the town folk are availing themselves of the privilege of enjoying the beauties of this delightful spot.

There are already several campers on its shores, and within the past couple of weeks many others have signified their intention of camping at this rendezvous.

This is without doubt one of the best spots of nature, and we are sure fortunate in possessing such an attraction within such easy reach.

OUR SOLDIERS AT FRONT GET BRITISH RIFLES

OTTAWA July 17.—It is understood the second and third Canadian divisions will be armed with Lee-Enfield rifles with which the first division has been equipped. Since the outbreak of war, an improved type of Lee-Enfield rifle has been adopted and manufactured under orders of the British Government. With a view to uniformity the Lee-Enfield rifle has been offered to the Canadian Government for Canadian troops at the front.

It is expected that negotiations will be carried on in the immediate future between the British Government and the governments of the Dominions with a view to securing for all His Majesty's forces through the empire, a uniform type of rifle. All existing facilities for production of rifles in the overseas dominions will be utilized for the manufacture of the new service rifle when adopted.

CHURCH NOTES

Union Services will be continued next Sunday morning in the Presbyterian Church and at the Methodist Church in the evening. Rev. R. K. Swenerton will preach, and this will be his last Sunday prior to leaving for his holidays.

On Sunday, in St. Thomas Church, the morning Service for the Children at 11 o'clock. In the evening public worship at 7.30. At this Service the subject of the Sermon will be the hymn "When I Survey The Wondrous Cross."

On Thursday evening at 7.30 Litany of Intercessions for the Soldiers and Empire.

Friends of W. K. Bothwell will be sorry to learn that he has suffered the loss of his father, John Bothwell, of Perth Ontario, which occurred on July 11th. at the age of 89 years from senile decay. He leaves three sons and three daughters. The funeral took place in the family grave at Perth.

W. J. BLAIR WILL GIVE REGTL. COLORS TO 151ST BATT.

W. J. Blair, Provost, federal candidate in the Battle River constituency in the conservative interests, has offered to present the king's and regimental colors to the 151st battalion, C.E.F., now in camp at Sarcee and his offer has been accepted with thanks by Lieut. Col. Arnot, O.C. The colors have yet to be made and the presentation will not likely take place until some time in August. On that occasion it will probably be arranged to have excursions to Sarcee, where the colors will be presented, from Lloydminster, Wainwright, Coronation, Provost, Fort Saskatchewan and other outlying points of the district from which the 151st was recruited.

Mr. Blair, who has been at the Royal Alexandra hospital for some weeks, where he had a fracture of the left elbow reset, left that institution today. His arm is in a sling and Mr. Blair is still under a doctor's care. He will remain in the city for about a week. —Edmonton Journal.

OTTAWA RUMOR MAKES EDMONTON OFFICERS ANGRY

OTTAWA, July 14.—Officers commanding the various military units now recruiting up to full strength in Edmonton are far from pleased at the announcement emanating from Ottawa and credited to Citizen of that city, that a battalion in the capital was short some 400 men and the vacancies would be filled by drafts from Western Canada.

Just because recruiting has slowed down to a walk in Eastern Canada does not strike the local officers as a good reason for asking the west to supply the deficiencies, especially as it is only by the pursuit of the most vigorous kind of a campaign that men are being secured in this province to fill the regiments already authorized.

"This outside competition would be alright except for the fact that six Edmonton regiments required in the neighborhood of 1,600 men," said one of the recruiting officers today, "and we cannot see where they are going to get the required quota."

The 138th, 194th Kilties, 196th Universities, 202nd Sportsman, 218th Irish Guards, and 233rd French Canadians are not p to full strength and will have trouble completing their establishment until such time as battalions with headquarters in outside provinces are compelled to confine their recruiting activities to their own territory.

All citizens are asked by the Fire Chief to take notice that the fire alarm will be rung at three o'clock Friday afternoon for the purpose of testing the bell and hammer which have been put in order this week. This is done so that it can be decided whether the alarm can be heard all over town.

Bob Campbell is camping at Clear Lake these days with his wife and child. Mrs. Watson is also at this pleasant spot.

The Ladies Aid of the Methodist church are arranging a Sale of Home Cooking to be held in the gymnasium on Saturday next from 3 to 6 p.m., when a large attendance is hoped for. Refreshments will be served.

START PIG CLUB: BANKERS FURNISH MEMBERS MONEY

The bankers in many states are realizing the value of pig-club work as a means of materially improving rural conditions according to club agents of the department. Not a few of the bankers have made it possible for worthy club members to secure pigs on their personal notes. In this way a well-bred pig is secured and the member can pay for it from the proceeds of the pig as a meat animal or from the sale of the offspring in the case of a breeding animal. The member enters into a business agreement with the banker and is thus relieved of the stigma of charity which is the result when a pig is given out-right. This arrangement is a practical means of teaching business methods to the rural young people. It is also a character building process for it is but natural for a boy when treated as a man to act in a manly manner.

This apparent generosity on the part of the bankers is in many cases business acumen. A case in point is that of a Texas bank. The president of the bank placed 326 pigs among the pig club members of his country. As a result of the acquaintances made and securing and placing these pigs many new patrons were secured. These patrons brought in over \$75,000 in individual deposits. Needless to say this was a profitable business for the bank, but it is also a means that will increase with time in its beneficial influence. One of the Texas papers states that the Banker "has laid the foundation for a prosperity which will be lasting. The boys that he has helped to get started in the hog business are now on their feet financially and before many years will be making big shipments of hogs to market each year. The money received from the sale of hogs will be expended in further developing the country. Every merchant in the county will profit, the banks will get more deposits and the farmer will have more money with which to further develop the farms."

A special meeting of the executive of the Board of Trade is called for tonight in the Council chamber, at which all members MUST be present as the business is of such an important nature as to require its immediate attention.

PROVINCIAL FARMING SPECIAL TRAIN VISITS TOWN FRIDAY LAST

Professor E. A. Howes, and the officials in charge of the special farming train which is being conducted by the Provincial Government in the interests of better farming must have been well pleased with the streams of farmers who came into town to pay a visit to this latest addition to the efforts made on their behalf.

In all of the fourteen cars which composed the train were exhibits of the greatest value from an educational point of view, and in addition experts from the Government farms who lectured on the actual animals taken from the cars.

Taken altogether the whole affair was the greatest success, and not the least among the whole was the women's department, where lectures pertaining to their duties were delivered for well over an hour.

LINKING UP OUR FAIR DOMINION EAST TO WEST

The inauguration on June 11th of through passenger Service three times a week in each direction between Winnipeg and Quebec by the Canadian Government Railways is an important factor, not only in providing further improved transportation facilities between Western and eastern Canada but is also the means of settling particularly attractive agricultural districts. Many thousands of acres of arable land lies contiguous to the Canadian Government Railway and this route should also specially appeal to tourists, sportsmen, etc. In addition, there is a considerable saving in time for passengers going beyond Winnipeg or Quebec as the case may be, with the added attraction of having an opportunity of travelling in up-to-date equipment over first-class roadbeds away from the usual beaten path through a territory that is replete with natural scenic advantages.

Close connections are made East and West at Winnipeg with Grand Trunk Pacific Railway.

The public has not been slow to take advantage of the new route, and the passenger traffic officers of the Canadian Government Railways in Winnipeg look forward to a heavy traffic over the new line.

The prize list for the Edgerton Fair is in the printers' hands, and judging by a perusal of it the fair is going to be as usual worth travelling many miles to attend.

Team Get Scared And Bert Harvie Receives Injury

Bert Harvie, who was badly injured on the day of the sports returned this week from Edmonton where he was a patient at the Strathearn hospital. He is now convalescing.

It appears that the sufferer was driving in for the day's sports when some cattle in the bush at the side of the trail

jumped out ahead of the horses and they being scared bolted. Mr. Harvie jumped from the buggy and in doing so he fractured the bones of his leg and burst the ankle cap. He was brought to town by neighbors, and sent to Edmonton, and is now recovered sufficiently to return to his farm on 27 41 4w4.

LOCAL FARMERS CHARGED WITH STEALING GRAIN

W. H. Hallatt, J. C. McLeod, and F. E. Spencer, where the J. P.'s who adjudicated on Thursday and Friday last at Edgerton, when W. R. Minnick was charged with stealing grain, and W. J. Minnick was charged with stealing grain cheques.

Hans Hanson, of Edgerton, was the complainant, but after the magistrate had heard the case for the prosecution they were unanimous that there was no case, and discharged the accused without calling for a defence. H. P. May, of Wainwright was the defending lawyer.

MORE SUBMARINES BUILT FOR SERVICE ON TRANS-ATLANTIC

Berlin July 17.—The third German submarine freight blockade runner of the Deutschland type is finished, another is nearing completion and two others on the stocks are being rushed as fast as possible. That is the information from a source in a position to know, but of which it has not been possible to obtain definite confirmation. The Bremen, the second of the invisible fleet is reported enroute to some port, presumably American.

From a very reliable source in touch with shipbuilding yards, government and naval circles, emanate reports of tremendous activity in turning out submarines as never before. Shipbuilding yards whose specialty is submarines are working at high pressure.

EXCURSION TO VERMILION SCHOOL OF AGRICULTURE

Alex. Galbraith, superintendent of fairs and institutes, reports that a three days' excursion has been arranged by the Provincial Department of Agriculture for visitors to the farm school at Vermilion from July 31st to August 2nd (inclusive) at single fare rates for the return journey.

For particulars of program and plans for the excursion see our next issue. A large attendance is assured, and everybody will be made welcome.

Owing to the fact that a public appeal is being made for sox for our boys at the front, the local chapter of the Daughters of the Empire are announcing that some of them will be at The Annex on Saturday afternoon, July 29th for the purpose of receiving all sox which are then completed, or their equivalent in money.

HEROIC WOMAN RECEIVES REWARD FRENCH GOVT.

The British government has given \$1000 to Madame Jaquet, widow of the mayor of Lille, who was shot by the Germans.

The mayor stood at his post when the Germans seized Lille. He with his family, not only acted as a buffer between the invaders and the citizens, but he did everything in his power to shelter and escape the British and French soldiers caught by the sudden German advance.

He was suspected of this, but the event which led to his arrest was when it became known that he had hidden in his house for several weeks and assisted to escape a young British aviator Lieut. (now captain) Mapplebeck, who through accident to his machine had had to descend at Lille. For this he was shot.

Madam Jaquet and her family are now living in Paris, and the French Government has granted her a pension in the shape of a license for a tobacco shop, the sale of tobacco being in France a government monopoly. It is not necessary that she herself run the shop. She can let it out to the highest bidder and draw the rent.

LETTERS TO THE EDITOR

HORSES AND CATTLE RUNNING AT LARGE

Mr. Editor.—Cannot something be done regarding the horses and cattle which are allowed to run at large around our town both night and day? These animals are becoming a regular pest, for in addition to the damage they cause to the gardens, other property is being depreciated by their tramping and pushing around outbuilding, etc. I have even been awakened at night by such animals rubbing themselves on the side of the house under my window, and indeed windows have been smashed by them. Possibly if the Town Council would get busy and enforce the pound by-laws this bugbear could be made to cease.

A LONG SUFFERER

(The only way in which this nuisance will ever be stopped is for every aggrieved party to impound each and every animal found astray, irrespective of whose property it may be, and to keep doing so until the owners will find it cheaper to build barns and house their beasts; which is where the animal should be on such nights as these when the mosquitoes are so torturousome to any animal. —Ed.)

Great excitement was caused in traffic circles last Thursday when it was discovered that a couple of cars had somehow slipped a cog, and were making their way towards Wainwright from the west. They were chased by an engine, and were caught on Fabyan Hill, a short time before No. 1 was due to head-on with them.

WAINWRIGHT, ALTA., WEDNESDAY, JULY 19th, 1916

THE FUTURE CONSTITUTION OF THE BRITISH EMPIRE

A GREAT MANY NEWSPAPERS and a great many public men are vastly disturbed about the reconstituting of the relations between the various parts of the British Empire after the war. Some of our overseas statesmen, notably Premier Hughes of Australia, have been presuming to speak in quite dogmatic fashion for all the people of the overseas Dominions. There can be no doubt that certain changes will come about after the war, though it is hard to see that these matters are of paramount importance at the present juncture. The Empire has responded splendidly in the great struggle that has been waged during the past two years. No better results could have been obtained under any form of Imperial Federation that has yet been suggested. Compulsory military service would have insured better and more rapid results, but that is a change that each part of the Empire must bring about for itself if it is to be brought about. No authority could be permitted to introduce compulsion into Canada except the majority of the Canadian people. Any attempt to settle such questions for any Dominion would not strengthen, but rather weaken the Empire.

We realize that we cannot stand still but changes will come gradually. The great danger is not in delay but in "raw haste." The Right Hon. A. J. Balfour, former Premier of Great Britain, and a deep student, is not in the least disturbed about these secondary matters at the present time. In a magnificent address the other day to the Overseas Parliamentarians he said: "Before the war all of us discussed the future of the British Empire and analyzed the bonds which held together this great political organization that is without a parallel in history, and perhaps each man had asked himself whether, when the moment of stress or danger occurred, these bonds of common sympathy and common ideals, rather than of tyranny or law, would stand the stress of a great struggle. All doubts, however have been dispelled."

"The response of the Dominions forms one of the marvels of history, one which the Empire historian of the future will look back upon with pride that no familiarity can stale. Canada, Australia and New Zealand, without the calculations of ingenious theoretical and political writers, have sent us of their best in a great joint effort to maintain the ideal of freedom and liberty, which is the proud boast of our race, and they have come without persuasion or pressure."

Mr. Balfour continued to discuss the future constitutional relations of the Empire and sounded a note of warning. He said: "I do not ask myself whether it would be wise or easy to modify the relations between the various parts of the Empire. I look forward to the problem with absolute confidence, whether we change it or leave it. As it is, this fact always remains: that we are bound fundamentally and essentially, because we enjoy the same common ideal of liberty and freedom and the same spirit of law and order, and we are determined that no nation shall break those bonds, however well organized they may be. After two years of titanic efforts, we shall go forward with indomitable will and confidence, until we reach final triumph."

LACK OF PUNCTUALITY PROVES SERIOUS DRAWBACK

WE DO NOT TAKE upon ourselves the responsibility of sermonizing in our columns, nevertheless a word in reason may not be out of place when occasion calls—or it seems to call—for it. We used to write in our copybooks half a century ago (more or less), among other sensible adages and proverbs, that "Punctuality is the soul of business." It seems to us that the inhabitants of our town fail lamentably in carrying out so wise an injunction. It does not matter what the occasion may be: a court of justice, inquest, council meeting, the pernicious habit of nearly everybody is to put in an appearance about ten minutes or a quarter of an hour late. This is wasting the time of the few who are punctual. We fear the habit has extended to even more serious gatherings. Most of the churches announce that the services commence on Lord's Day mornings at 11 and evenings at 7:30 o'clock, but it is mostly a sixth of an hour before the start is made. If we really believe that we have a Divine appointment at a certain hour, let us show proper reverence by being present on time. We venture to say that if our townsfolk had to interview King George at some fixed time, their watches and clocks would be constantly scanned to make sure they would not be late. Good people, take this little homily to heart and get out of this sloppy way of always being late.

TOBACCO WILL HELP OUR BOYS TO KEEP FIT TO FIGHT

A MOMENT THE PAPERS left by Richard Harding Davis, the brilliant American War Correspondent and Author his brother discovered the following message, written apparently a few days previous to his death.

Men at home who breathe the tobacco smoke as freely as they breathe air, cannot know how much tobacco means to the man in the trenches, or rather how much the loss of it means. During the Spanish-American War, in the U. S. Army regulations, tobacco was officially classified as "Officers' Supplies." It was considered a luxury. When I cabled from Cuba that our soldiers in Cuba needed tobacco, my appeal was ridiculed and I was asked if our soldiers did not also want silk pajamas and eau-de-cologne. The man who had never gone without tobacco, and who could fill his pouch or case at the street corner still thought tobacco a luxury. It was Sir Frederick Treves during the South African War, who made people understand that for the soldiers, tobacco was a necessity. A man can hunger, he can suffer cold, fatigue and wounds; these things

he can endure if he can smoke. I have been a looker-on on seven wars, and I find it so with each of them, and with men of all races. Give them tobacco and there is no hardship that they will not cheerfully suffer. So with the purpose of your fund, I, for one, am heartily in accord. If the glorious record of the Canadian Troops has been made on short rations of tobacco, we may feel confident that well supplied with it they will in a short time be in Berlin, which is the heartfelt wish of, (Signed) RICHARD HARDING DAVIS

The above is the testimony of a man who has been through seven wars, and who himself knows personally a soldier's needs. No comment is necessary on our part. That great Imperial institution, "The Overseas Club" is endeavoring to provide for the needs of the Empire's soldiers from overseas. It has organized Canada's Tobacco Fund for the comfort of our Canadian soldiers, and has already raised in Canada upwards of \$130,000, for this purpose. Unfortunately, the money being subscribed is insufficient to provide each Canadian soldier with a weekly tobacco supply, and an earnest appeal is made for more funds. For 25c The Overseas Club will send to the front as much cigarettes and tobacco as a private individual can purchase and send for \$1.00, and will enclose in each package a box of matches and a postal card for the soldier to express his thanks. For \$1.00, a month our readers can make provision for the smoking needs of one of Canada's boys at the front, and surely there is no smoker left in Canada who would like to think that his friends who are defending the Empire and adding glory to Canada's name are going short of a smoke. There ought to be no difficulty in securing that each Canadian soldier has his weekly tobacco supply, and we invite our readers to help in the accomplishment of this purpose.

LEGAL NOTICE

JUDICIAL SALE OF FARM PROPERTY

Pursuant to Judgment and Final Order for Sale in an action by Bloss F. Corey vs. Chris Holte, there will be offered for sale by Public Auction with the approval of the Judge or Master of the Supreme Court of Alberta, excepting mines and minerals and subject to the conditions and reservations contained in the Grant from the Crown, or in the existing Certificate of Title by John William Stuart, at the Postoffice, in the village of Irma, in the Province of Alberta, at 1:30 o'clock p. m. on Saturday, the 22nd day of July, A. D. 1916.

The South half (1/2) of Section Four (4), Township Forty-Six (46), Range Nine (9), West of the Fourth Meridian, in the Province of Alberta, containing Two Hundred and Eight-two (282) Acres, more or less.

The vendor is informed that the said lands lie within ten miles of the Village of Irma, the nearest railway station, eight miles from Orindale, the nearest postoffice, and two miles from the nearest school.

The soil is all good clay loam with a chocolate clay subsoil, and the land is rolling, the nearest purchase money is to be paid into Court within sixty days without interest or in the alternative a sufficient sum to reduce the balance to One Thousand Dollars (\$1000.00) within sixty days without interest; the said sum of One Thousand Dollars (\$1000.00) to be secured by the purchaser giving a Mortgage for the said sum in favor of the plaintiff, payable in Three (3) Years with interest at the rate of 10 per cent. per annum.

The Sale is subject to a Reserve Bid. In all other respects the terms and conditions of the sale will be the standing conditions of the Supreme Court of Alberta as approved by the Master in Chambers.

Further particulars can be obtained from Messrs. Hyndman, Milner & Matheson, Barristers, Edmonton, Alberta, or from John William Stuart, Auctioneer, Irma, Alberta.

Dated at Edmonton this 16th day of June, A. D. 1916.

J. A. ROSS,

Approved, A. Y. B. A. C. S. C.

STENOGRAPH OF CANADIAN NORTH-WEST LAND REGULATIONS

The sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applications must appear in person at the Dominion Land Agency or Sub-Agency for the District. Money by money may be made at any Dominion Land Agency (not Sub-Agency), on certain conditions.

During the month residence upon and cultivation of the land in each of three years. A homesteader may live within one mile of the homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required upon where residence is performed in the vicinity.

During the six months residence in good standing may pre-empt a quarter-section alongside his homestead. Price \$5.00 per acre.

During the six months residence in each of three years after earning homestead patent; also 80 acres extra cultivation. Pre-emption patent may be obtained at once at homestead, subject to certain conditions.

A settler who has homesteaded his certain right may take a pre-emption homestead in certain districts. Price \$5.00 per acre. Duties—Must reside six months in each of three years, cultivate 80 acres and erect a house worth \$100.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

PUBLIC NOTICE

In the matter of Court of Confirmation of the Tax Enforcement Return of the Rural Municipality of Vale No. 392. TAKE NOTICE that His Honor Judge Clarence Taylor, Judge of the District Court of the District of Edmonton, Alberta, has appointed Tuesday the 19th day of September, 1916, at the hour of 1:30 o'clock in the afternoon at the Town Hall of Wainwright, Alberta, as the time and place of the holding of the Court of Confirmation to confirm the Tax Enforcement Return of the Rural Municipality of Vale, No. 392.

Filed at Dole, Alberta, this 12th day of July A.D., 1916.

G. N. G. Van Dyke, Sec.-Treas.

Under the provisions of the Land Titles Act there will be offered for sale by Stephen R. Bowersman, Auctioneer, at the Post Office, Wainwright, Alberta, on Saturday, 16th September, 1916, at 11 o'clock a.m.

PART OF THE SOUTH-HALF SECTION 6, TOWNSHIP 46, NO. 5, WEST OF THE 4th MERIDIAN ALBERTA, LYING EAST OF BAXTER LAKE CONTAINING 137.40 ACRES MORE OR LESS.

The soil is a black loam with clay subsoil. There are 150 acres of good arable land, of which 71 are broken and 31 were under crop last year. There is on the property a one-story dwelling house, 18x22, shingle roof, a barn 18x18, a stable 24x18, a granary 12x20, a well and 1 1/2 miles of fencing with two strands of barbed wire and willow post; The land is in a well settled English speaking district, ten miles from Wainwright station and four miles from a post-office and school.

Sale will be subject to a sealed reserve bid, free from encumbrances except taxes for the current year.

Terms of sale: 10% cash at the time of sale; balance within 60 days or \$500.00 of purchase price may remain under mortgage. For further particulars apply to WALLBRIDGE, HENWOOD, GIBSON & MILLS, Edmonton.

Solicitors for the Vendors Dated this 20th day of June, 1916, at Edmonton, Alberta. 10-7c.

ALBERTA PAYS UP WELL; STATEMENT OF RECEIPTS

The following statement of
receipts in this Province to the
Patriotic Fund account for the
last ten months will be read
with interest by all who have
this great national cause to
heart. As is well known, the
amount required from the
Province was allotted to the
various constituencies last year
having regard to their popu-
lation and ability to pay. As
will be seen from the statement
below, several of the constitu-
encies have passed into the
honor roll by contributing
more than was asked of them.
Notable among those are Dids-
bury, which passed the required
mark by almost \$1,000.00; High
River by almost \$3,000.00; Lett-
bridge by more than \$15,000.00;
Red Deer by \$10,000.00; Camrose
by \$11,000.00; Sedgewick by
\$1,000.00 and Victoria by \$3,000.

On the other hand, it is to be
noted with regret that some
have fallen considerably short
of their allotment, and there is
one in the unenviable position
of having given nothing what-
ever.

The statement of amounts
allotted and paid up to June
30th follows:—

WHAT IS NEEDED TO CONVINCE GERMANS THEY ARE DEFEATED

TAKING OF TOWNS WILL IMPRESS THE PEOPLE

Officer of Prussian Guard Believes That Each German Victory For Which They Pay so Dear, Brings Them Nearer to Defeat, But Nation is Kept in Ignorance

The London Daily Mail's Berns correspondent, writing on internal conditions in Germany says:

"The morale of the civilian population is considerably shaken by privations and the morale of the army to some extent is affected by the news from home, as well, no doubt, as by the heavy losses at the front. An officer of a Prussian Guard regiment recently said:

" 'We can win more victories at a price, but each victory brings us nearer to defeat.' "

"But the nation is kept together still by a carefully inspired fear of

"The German army and civilians are to be means in a mood to throw the burden of the war on the victors, nor are they reduced to the condition of a garrison whose fighting men are few and far between.

"To break the fighting spirit of a nation at bay, something more than a garrison must be applied. The Germans must be reminded that they cannot hold the lines (in the enemy's country, remember) which have been won by the confidence of civilian Germany, which inspired by names on the map—Munich, Berlin, Frankfurt, Warsaw, Monastir—so their morale and their mental staying power, unaided by physical means, must finally be broken down by the enemy."

"After making every possible inquiry of everybody I could find who had been in the German army, I am to be fairly competent to judge. I believe that if the Germans are forced

Queen Mary's Needlework Guild

Letter Received From Lady Lawley
Expresses Appreciation of Work

The following is an extract from a letter received by the Montreal branch of Queen Mary's Needlework and Sewing Society, in London, England, at the Guild Headquarters, in London, England:

"I hardly know how to thank all those who have so kindly contributed to the making of these socks, and in conveying the expression of Her Majesty's appreciation to the various branches and individual workers who have been so busy and so kind in making. Her Majesty was much interested in the Indian made socks, and much astonished what one of Her Majesty's little petticoats has been made in addition to 6 cakes of comforts made from the proceeds of this little petticoat. There is more to follow. The picture book

little petticoats has been and is doing for the cause, as we see that in addi-

are delighted, and I will send them to one of the Officers' Hospitals.

"The dressings have been furnished to Chedden Hospital as requested."

"I must not forget to mention your comfort bags from Yatmouhi, which are so lovely and so much appreciated."

"Should you by any chance get any more of these children's things, you should now be glad of a few, as I am just for some, for widows and orphans."

"I will be glad to send you some to our department for women and children."

"That has been closed."

"I am sure," said Hamilton knowing that her shirt was quite correct?

"With renewed thanks,
Yours truly,
(Signed) ANNIE LAWLEY
Hon. Secy."

Two Blacked Policies Compared

We could not if we would, have a quiet submarine murder by submarine

the number, because outside the Baltic the Germans had had to find another way, the way of the Orders in Council; and that difference between an Germany and a submarine policy was that whereas Germany got immediate results, ours were bound to be slow and ultimately ineffective. But I think that I have said many at once; we knew that it could only do so by long continuance, and the longer it continued, the more it would pinch. On the other hand, Germany could start massacring our merchant sailors and our fishermen, and she did so. The Indian Ocean crimes against the Lusitania, the Sussex and the rest of that generation list have been committed; the bombard-

of their victims lie in graves at the bottom of the sea crying out for revenge. He says seriously by the way that Germany can perpetrate such a orgy of massacre for fourteen months and then, just when her opponent is at hand in the game, the Order-in-Council blockade, is beginning to make itself felt seriously, can turn round and have such pleasure and cry quits. *London Chronicle*.

—

The Rising Generation

Odd are some of the answers which the rising generation offer in the examination papers. Here are a few of the latest:

The world consists of the House of Commons and House of Gods.

"The population of New England is to dry for farming."
"The grand divisions of North America are wheat, rye, corn, barley, and so forth.—Canadian Courier.

Canada Doing Her Share.
Canada is bearing its full share of the brunt of the fighting in Europe, and the ties to the British Empire are thereby still further strengthening. The loyalty of the British overseas dominions is one of the great elements of strength of the entente power.

"Have you got any windows clean or floors to scrub?" asked the tramp, as he presented himself at the back door.

"Dear me!" replied the woman, "you don't look like a man who would clean windows or scrub floors."

"Oh, no!" said the wanderer, "that ain't in my line. I'm looking for work for the misus."
